Subject: Don't be late!
Hi Sarah, I hope you're doing well! I just want to remind you about our school trip this Friday. The bus will be departing at 8:00 a.m. sharp from the school parking lot. Please make sure to arrive by 7:45 a.m. so we can avoid any last-minute rush. Don't forget to bring your packed lunch, water bottle, and anything else you might need for the outing. Looking forward to seeing you there and having a great time! Take care, Li Ming

- 1 According to the email, Sarah must
- A eat lunch before boarding the bus.
 - B come early to school on Friday.
 - C catch the bus from her house.

Aiman, have you thought of saving your allowances?

Not really, dad. I usually spend them on games and snacks.

If you save some, you can buy bigger things, like that new bicycle you want.

That makes sense. How about I save half and spend half?

Great idea! Let's get a savings box this weekend. It would be really helpful.

- 2 What does Aiman's dad suggest he do to save money?
- A Saving some money to buy things he wants.
 - B Spending all his pocket money on games and snacks.
 - C Using half of his allowance to buy a savings box.

Part 3

Questions 19 to 26 are based on the following passage.

Read the passage carefully and choose the best answer A, B, C or D.

For each question, mark your answer on the answer sheet.

As the full moon peeked through the clouds, piercing the blanket of darkness, shrieks of surprise echoed through the night. "It's so cold!" "Do we have to jump?" "No!"

A group of tourists, wrapped in batik sarongs, gathered amusingly in the corner of an outdoor bathroom, their eyes wide with a mix of excitement and trepidation. They were about to experience their first 'mandi kali' – a traditional village-style bath that would take them back in time.

"You're not supposed to jump in!" I laughed, demonstrating how to use the water scooper. As the icy river water hit my skin, I yelled, "So cold!", *skipping on the spot like a startled cat*. The others screamed with laughter, their initial hesitation melting away.

Line 8

This was not just any ordinary holiday. We were staying at Forest Village, a nearly century-old traditional house, which can be found in Kuala Kangsar, beautifully restored and transformed into a stunning heritage homestay.

The concept developed by Rahman Awang, an enthusiastic environmentalist with a twinkle in his eye, Forest Village was more than just accommodation. It was a doorway to the past, a living museum that allowed guests to step into the shoes of their ancestors and experience the simple joys of kampung life.

As we gathered for breakfast the next morning, enjoying homemade roti canai and curry prepared by a local cook, Rahman amused us with tales of his childhood. His eyes danced with mischief as he recounted our nightly adventures, including our encounter with an "army" of tiny frogs camouflaged on the toilet door handle.

But it wasn't just the quaint accommodations that made Forest Village special. The previous evening, we had been whisked away on a thrilling ride in the back of a small lorry, speeding along winding roads to reach Batu Putih. The breathtaking view from the top – a sprawling valley with a meandering river shrouded in mist – was worth every bump and jolt of the journey.

As Rahman shared his vision for the future – a plan to create an entire cultural village displaying traditional houses from across Malaysia – I couldn't help but be swept up in his passion. This wasn't just a nostalgic trip down memory lane; it was a bold attempt to preserve a vanishing way of life for future generations.

From the absence of air conditioning, surprisingly comfortable in the cool night air, to the soothing orchestra of crickets and frogs that serenaded us to sleep, every aspect of our stay there was designed to immerse us in the authentic kampung experience.

As we prepared to leave, I realized that the place had given us more than just a unique vacation. It had gifted us with a deeper appreciation for our heritage, a connection to our roots and memories that would last a lifetime. In a world racing towards the future, this kampung house stood as a testament to the enduring charm of the past – a secret jungle hideaway where time seemed to stand still.

- 19 From paragraph 2, we know that the tourists
- A were at a river.
 - B were used to the place.
 - C had never tried 'mandi kali'.
 - D had worn batik sarongs for the first time.
- 20 The phrase '**skipping on the spot like a startled cat**' in line 8 shows that the narrator
- A was hesitant.
 - B was excited.
 - C felt scared.
 - D felt cold.
- 21 What makes Forest Village special?
- A It is a luxurious place to stay.
 - B It is a well-restored heritage getaway.
 - C It is equipped with modern conveniences.
 - D It is popular with the best room rate for guests.
- 22 How did the group react when they encountered tiny frogs on the toilet door handle?
- A They were angry.
 - B They were amused.
 - C They were unhappy.
 - D They were indifferent.

- 23 What was the highlight of the evening adventure?
- A The magnificent scenery from up the hill.
 - B The comfortable private accommodations.
 - C The colourful traditional dance performance.
 - D The exciting ride in a small lorry to Batu Putih.
- 24 What did the narrator think of Rahman's vision for the future?
- A It was not possible.
 - B It was courageous.
 - C It was hard to do.
 - D It was promising.
- 25 Why was the absence of air conditioning not a problem for the guests?
- A The room was equipped with fans.
 - B They were used to hot weather.
 - C They stayed indoors.
 - D The air was cool.
- 26 Why did the narrator appreciate his stay at Forest Village?
- A It had helped him learn more about life values.
 - B It had made him change into a better person.
 - C It had helped him plan his future well.
 - D It had made him realise his roots.

Part 4

Questions 27 to 32 are based on an article about a man running for his life.

Six sentences have been removed from the article. Choose from the sentences **A to H**, the one which fits each gap (27 to 32). There are two extra sentences which you do not need to use.

Mark your answers on the answer sheet.

The Narrow Escape

In a forgotten corner of the city, Hamdan awoke in a dark, damp room, bound to a chair. Panic surged through him as he remembered the night before — 27. They were ruthless, their voices cold as they discussed their plans. But Hamdan was determined not to be a pawn in their game.

28. The room was cluttered with old furniture and boxes. One corner held a broken lamp, and Hamdan noticed a rusty nail sticking out of the wooden chair. With a surge of hope, he began to rub his wrists against the nail, 29.

Quietly, Hamdan slipped to the floor, his heart racing. The abductors were still distracted, and he used this moment to inch his way toward the door. Just as he reached for the handle, the men suddenly fell silent. 30.

Thinking quickly, he grabbed a nearby box and hurled it across the room. The loud crash drew the kidnappers' attention, and they rushed to investigate. 31.

The moonlight illuminated his path as he dashed through the overgrown alleyways. He could hear their shouts behind him, but he pushed himself harder. 32. With every ounce of strength, he waved his arms, and the driver pulled over.

Breathless and terrified, Hamdan climbed into the car, knowing he had escaped. As they drove away, he vowed never to let fear hold him captive again.

Part 5

Questions 33 to 40 are based on the following texts.

Read the texts carefully and answer the questions that follow.

TEENAGERS' INTEREST

A – AMIR, Robotics Enthusiast

I enjoy working on robotics projects because they help enhance my problem-solving skills and creativity in innovative ways. I build and program robots, which teaches me essential skills in engineering and technology that are crucial for future careers in these fields.

B – LISA, Aspiring Programmer

Learning to code has greatly enhanced my logical thinking and programming skills. I practise different programming languages and work on real-world projects. This experience not only prepares me for technology-related careers but also teaches the importance of accuracy and patience in coding.

C – JOHN, Space Explorer

My interest in astronomy allows me to explore the wonders of space and the universe. I engage in stargazing activities, learn about celestial bodies and stay updated with the latest discoveries in astronomy. This passion helps me develop a scientific mindset and a deeper appreciation for the cosmos.

D – ANNA, Environmental Advocate

I am passionate about nature and sustainability. I participate in activities like tree planting, recycling programmes and clean-up campaigns. These activities teach me about environmental conservation and the importance of protecting our planet.

E – MARK, 3D Printing Enthusiast

Exploring the world of additive manufacturing through 3D printing is fascinating. I design and print 3D models, learning about the technology and its applications in various industries. This experience provides hands-on learning and prepares me for future technological advancements.

F – SARA, Science Fair Participant

I love experimenting and presenting my findings at science fairs. I work on different science projects and enjoy showcasing my work. This experience helps improve my research and presentation skills, fostering a deeper understanding of scientific concepts.

Questions 33 – 36

Using the information given, which text (A - F) describes the following views on teenagers' interest?

For each question, mark your answer on the answer sheet.

	Statement	Paragraph
33	Practical projects will help with future undertakings.	
34	Participants learn about ways to save our nature.	
35	Engaging in the activities makes me appreciate the world's creations more.	
36	Working on projects involving technology and invention is enjoyable.	

Questions 37 – 40

Using words from the texts, complete the summary below. Choose **no more than one word** for each blank.

Write your answers on the answer sheet.

Teenagers' Activities

Many teenagers are passionate about various activities that help them grow in different ways. These activities enhance their skills and provide valuable experiences. For example, some teenagers enjoy working on 37 creations, which help them develop skills in technology and problem-solving. Others might be interested in the field of 38, learning about space and the universe. Engaging in 39 activities can teach teenagers about nature conservation and the importance of protecting our planet. Additionally, exploring and presenting findings at educational 40 can improve research and presentation skills.
